Literacy Access

Berkeley, California

www.ivysandz.com

Phone: 510-528-8773

Date of Approval:

8/5/2016

E-mail: ivy@ivysandz.com

Approved Services:

One-on-one, individualized literacy instructions, grades 1 – 12 Fees: \$35/half hour; \$50/45 minutes; \$70/60 minutes
READING INSTRUCTION / SESSIONS
 •For younger readers (K-4th grades), sessions grow a child's independent reading level through work on the following:
 ~ Reading strategies and techniques for decoding ~ Fluency and expression ~ Thinking strategies to improve comprehension ~ Sound/letter recognition ~ Phonics/Sight Words ~ Confidence in learning
 •For older readers (4th-6th grades), sessions may include:
 ~ Remediation for struggling readers ~ Training in strategies to build comprehension including inferencing, self-monitoring, making connections, predicting, clarifying, questioning, and evaluating ~ Fluency building
WRITING INSTRUCTION
 Individualized sessions are designed for each child's specific developmental needs as a writer.
Emerging Writers (K-2nd): For emerging writers, we focus on beginning story writing through a process called interactive writing (the sharing of the pen between teacher and student). This then moves into independent writing work. Creating a message, basic storytelling, translating sounds into print, letter formation, and familiarity with written word chunks and sight words are developed.
Young Writers (1st-3rd): As young writers progress, sessions focus on creative writing. We learn to develop story problems, characters, setting, dialogue and description to create interesting stories. We can also focus on how to collect information from nonfiction texts and then write about what we've learned (beginning research).
Upper Elementary/Middle School Writers (4th-8th): Individual sessions can focus on creative writing or supporting academic growth in writing. As kids transition into upper elementary and onto middle school, they are also developing and later refining writing skills in the formats of persuasive essay, literature response, summary, and expository writing. We support each writer to gain skills and confidence in each of these writing processes.
High School Writers (9th – 12th grades): Sessions at this level focus on literature response essay writing, research-based persuasive essays, and other forms of academic writing with attention to solid organization and thesis development, voice and audience awareness, advanced editing skills, and advanced critical thinking.
MIDDLE AND HIGH SCHOOL STUDENTS
 Persuasive essays
 Research process and writing
 Literature Study and Response
 History Study and Response
 Critical thinking
COLLEGE PREPARATION
 Timed essays for SAT prep Support for college application essays

Approved Services: Inquiry Grove - nature-based science class for ages 4-7 Inquiry Grove is a small-group, play-based science learning experience in nature. Designed for ages 4-7, this mixed-age class uses the natural environment to encourage children to explore a chosen STEM (science, technology, engineering, mathematics) theme each week. \$30 per 2-hour class Weekdays TBD in August and weekends TBD in Sept-May Bodywise Health Education - comprehensive, LGBTQ-inclusive health/sex/puberty education BODYWISE Health Education provides small-group classes in health education, providing an age-appropriate, comprehensive, LGBTQ-inclusive, and scientifically accurate approach to learning about bodies and relationships. Core and Queries (First enrollment) \$390/ session (session includes 20 hours of class time over 6 months) Sibling discount is \$40 Subsequent Queries enrollment - monthly follow-ups - 5 meetings over 6 months, students can enroll multiple times after completing the Core segment of the class - \$90/ 6-month session Sibling discount is \$10 Schedule - Fall 2018 Dates: Core - Tuesdays, Sept. 25 - Oct. 30. 5-7pm. Queries - Tuesdays, Nov. 27, Dec. 18, Jan. 15, Feb. 26. 5-7pm. Spring 2018 dates TBD. Raintree School - K-5 nature microschool Raintree school is a K-5 micro school, based in the woods, with a school-in-the-world component as well. The school will be centered on student-led learning, with a strong social justice and science focus. Instruction will be in a mix of Spanish and English, using dual immersion to help students build skills in both languages. Raintree will provide curiosity-driven learning through a process of collaborative curriculum design. Students and teachers will work together throughout the year to build a curriculum that integrates students' interests and builds vital skills and knowledge. Learning will be play-based and experiential. Core knowledge and skill development will include physical, social, and emotional development, introductory language/book and numerical/spatial skills, as well as science, engineering/construction, social justice education, and artistic expression. The school will incorporate and celebrate the experiences and cultures of the families and the wider community, including people of color, indigenous peoples, immigrants, people of a variety of religions, gender-expansive and queer folk, people with disabilities, and people with diverse family structures. \$200/month for one weekly 3-hour class session \$375/month for 2 weekly 3-hour class sessions \$550/month for 3 weekly 3-hour class sessions \$700/month for 4 weekly 4-hour class sessions Sibling discount is 10% Sessions are Wednesdays 9:30am-12:30pm, Wednesdays 12:30pm-3:30pm, Fridays 9:30am-12:30pm, Fridays 12:30pm-3:30pm Tinkergarten - nature class for ages 4-8 Tinkergarten provides high-quality early childhood learning in the healthiest classroom of all—the outdoors. Families connect with trained leaders in their local community for play-based kids classes that help develop core life skills, all while having fun. \$105 per 6-class session (August 2018) \$200 per 8-week session \$250 per 10-week session If session has already begun, the remainder of the session is prorated - decreases \$25/week as the session continues. Scandent Lab - Homeschool science lab, hands-on, student-led science learning for ages 8-14 Scandent Science Lab is an exploratory, hands-on science lab that builds scientific process skills, teaches scientific knowledge and builds enthusiasm for science learning. Scandent Lab is taught by Rae Goodman-Lucker, an experienced, credentialed, National Board Certified science teacher. Rae uses Collaborative Curriculum Design to weave together students' interests and core science principles to create a cohesive, student-centered science learning experience. Each semester will have a theme, such as zoology, marine biology, human anatomy, environmental science, sports physics, etc. Classes are aimed at ages 8-14, but the exact age range will depend on the topic and may vary by semester. Semester class - \$600 for 10-week session of weekly classes, 3 hours per class \$720 for 12-week session of weekly classes, 3 hours per class \$900 for 15-week session of weekly classes, 3 hours per class Sibling discount 10% Fall 2018 - Life Sciences, Thursdays 1-4pm Additional Fall 2018 and Spring 2019 sessions TBD.

Tutoring - math, science, health, or writing \$70/hr Schedule will be determined with each student. Individualized science class, designed with student to address a particular science topic Scandent Learning provides individual and small-group instruction in STEM topics, focusing

Pacific Charter Institute

Active Vendor Directory 2019-2020

on hands-on, inquiry-based, and experiential learning. Specific topics will be chosen based on student and parent interests, and the skills and abilities of the students. This program is aimed at home-schooling students but is available to all. This can be a great way to supplement the STEM learning your child is receiving in school, especially if your school doesn't have the resources for a well-rounded lab science, technology, engineering, maker or tinkering program. For a single student, \$75/hr, 2 hr minimum per session. For 2-3 students in the same class, \$40/hr, each, 2 hr minimum per session. For 4-6 students in the same class, \$30/hr, each, 2 hr minimum per session. Schedule will be determined with each student.

Boise

Math with Mrs. Fish, Laura Fischer (formerly Math with Mrs. Fish)

Boise, Idaho

<http://mathwithmrsfish.com>

Phone: 208-996-9889

Date of Approval: 7/16/2018

E-mail: mathwithmrsfish@gmail.com

Approved Services: Math with Mrs. Fish provides a complete math curriculum and online instruction for sixth and seventh graders. Students may enroll as an "advanced" student or for remediation. The classes meet online using Zoom on Tuesdays and Thursdays. Sixth grade classes are from 9:00 to 10:00. Seventh grade classes are from 10:30 to 11:30. The cost is \$300 per semester. The curriculum is delivered digitally and is printed at home. The curriculum is 100% aligned to the Common Core State Standards, which means that any concept on the state standardized testing will be covered in class. The tone of the curriculum is conversational and frequently humorous. Laura Fischer, aka Mrs. Fish, has 30+ years of teaching experience and is a fully credentialed teacher in California. Middle school math is her passion and she has turned many math-haters into math-lovers (or, at least, math-tolerators).

Approved Services: Mind Math is a proven international method for whole brain development, improving your child's ability to perform even complex mental calculations while enhancing logical reasoning skills and attention span. This class is offered individually, or combined with language arts. Language Arts engages students into confident writers with a strong grammatical foundation while developing reading comprehension and public speaking. This class is offered individually, or combined with science or mind math. Science curriculum lets students explore concepts and engage their powers of reasoning while following common core standards. This class is offered only in conjunction with language arts in a three hour class.

Martinez, California

Phone: 510-851-2975

Date of Approval: 8/1/2016

E-mail: astridsmusicclasses@gmail.com

Approved Services: Private Piano Lessons Offering weekly one-on-one lessons for 30 min, 45 min or 60 minutes. Lessons for beginner students to those who have had past lessons. I teach all grades from Kindergarten to 12th grade. Piano lesson books vary depending on age and experience. Each lesson goes over proper technique, music theory, rhythm and sight reading along with learning new songs each week that help us apply the new lesson materials. Private Voice Lessons Offering weekly one-on-one lessons for 30 min, 45 min or 60 minutes. Lessons for beginner students to those who have had past lessons. I teach all grades from Kindergarten to 12th grade. Each voice lesson focuses on pitch, tone, ear training, warm ups and breathing. We will pick a song that we have chosen to work through that will help us apply the different vocal techniques we are learning. Private Music Theory Lessons Music theory lessons focus on the basics of music theory all the way through to jazz theory. We will use a work book that gives each student homework pages to work on throughout the week at home. This class can be done via Skype or zoom each week, if in-person lessons are not an option.

E-mail: holly_mendonca@yahoo.com

Approved Services: Private piano lessons for beginner students using traditional methods. Our goal is the enjoyment and appreciation of music styles from classical to popular tunes.For kids (ages 5 yr. and up) I use Alfred's Music for Little Mozart's or the Faber and Faber series.These books develop a solid musical foundation from which more piano skills can be taught.For older kids (7-10 yr. and up) there are a variety of resources: Alfred's and Bastien's are excellent and teach on the same basic principles. Supplemental music can add interest (from movie/video game themes to popular tunes).The curriculum develops performance skills at the piano and focuses on rhythm, keyboard technique, pitch matching, and note and interval identification.Performance opportunities offered through optional recitals once or twice a year depending on number of students.

Walnut Creek, California

Phone: 925-588-5502

Date of Approval: 2/8/2018

E-mail: kelsey1685@gmail.com

Approved Services: I teach private piano lessons using the Suzuki Method. Children are given one-on-one instruction once a week in the fundamentals of piano playing, including note-reading (using the Faber "Piano Adventures" books, MiniBooks by Suzanne Gore, and other supplementary materials), ear-training (using the Suzuki Method books and CDs), technique (scales, arpeggios, chords, etc.), music theory, and music history. Students give public recitals twice a year, performing both solo and ensemble music. Parents are very involved in the learning process, providing a musical environment for the children by attending lessons, playing recordings of the ear-training work, and assisting the children during home practice.

Approved Services: Reading and writing tutor for children grades K-8. Specialized tutoring for children with reading and comprehension challenges, getting them to grade level and above. Teaching methodologies include whole language, phonics and common core, in addition to customized lesson plans and materials. I teach one-on-one and small groups in person, plus WebEx for individuals. My journey as a reading specialist began when my own child started school and I realized he could not read like the other children. I began to read all available materials on the topic and took a series of reading specialist courses at his school district. These courses plus my studies at Davis prepared me to help children with all manner of reading and comprehension difficulties. It gave me the tools to offer specific solutions tailored to each child, not simply packets of work or generic instruction. I have helped hundreds of children per year for the last seven years on a tutoring basis and helping in the IEP classroom at the local schools. I offer students and their family the peace of mind that there is a road that leads to reading and comprehension, when it seems the problems are overwhelming. Reading is the foundation of all other knowledge, and comprehension of reading materials allows children to succeed in all other learning. I cannot work miracles and the process can be time consuming, but I never give up on a child ever! If they want to learn to read, then I will teach them. I give weekly detailed reports to parents and explain issues that need to be practiced during the week before I see the child next. I also offer children help in writing after they are proficient in grade level reading and comprehension. I can be reached at my cell phone: 808-782-2566. Call me today to schedule a free reading evaluation. Thanks, Michelle Thomas

Date of Approval: 7/27/2017

E-mail: atfallavol@gmail.com

Approved Services: Theater Arts Instruction: Students are taught an introductory course covering various aspects of musical theater, including song, dance, character and emotional acting, improvisational performance, and theater history. Each class culminates in a final performance showcasing each student's performing ability. Game Design With RPGM2003: Students explore the world of game design using RPG Maker 2003, an interactive tool for creating RPG video games. Topics covered include video game scripting / programming, pixel art animation, and interactive storytelling. This class serves as a fun way to teach programming concepts and basics to students in a way that is interactive and fun, and requires no previous programming experience. NOTE: All classes are taught at local homeschool co-ops in the El Dorado Hills area, with schedules determined by co-op administrators.

Date of Approval: 3/7/2019

E-mail: Livebrilliantlybold@gmail.com

Approved Services: Ceramics-I provide clay, tools, tablecloths, finished pieces etc. For my students to create & paint. I travel to groups whether they be in a home or @ a class location where many classes are offered. Students who enroll in multiple classes can learn creation techniques, developed their own styles & learn all about color through experimentation, & trial & error. Gardening-I provide gardening supplies like soil, starter pods, small pots, & seeds. In addition, I will teach some botany, water conservation, worm composting, composting, etc. & general growing tips. If in a home environment, I will help place plants properly, encourage growth to the best of my ability, If in a class environment, I provide paperwork to go over, activities, seeds, starters, & encourage students in the growth of their plants. Tutoring-Math-I grew up doing very well in math, up to calculus. I always loved it & not only tutored kids while I was in college, but helped my own homeschooled kids with their math too. English-I have always been passionate about proper English. I had rhyming games with my 3 kids, have fun together correcting each other, etc. I was raised partially in England & have a unique acceptance of everyone, no matter skill level, talent or background. I believe each student has his/her own expression & hope to help bring that out in each & every one.

Well Read Fred Writing/ELA Classes

Sacramento, California

<http://wellreadfred.weebly.com>

Phone: 916-398-0240

Date of Approval: 8/16/2019

E-mail: wellreadwriting@gmail.com

Approved Services: Well Read Fred Writing/ELA courses provide live, online instruction to students in grades 3rd-12th. Using literature as a backdrop, students are guided through reading, writing, and comprehension skills, making our classes well-rounded ELA classes. Through the use of intentional assignments, engaging teacher instruction, and lively class discussions, we'll analyze and investigate literature and strengthen our reading and writing skills as well as our technology skills! Class literature discussions are difficult to simulate at home and are a valuable experience where the skills of listening to others' thoughts and expressing one's own thoughts are built. Because we meet once a week, homework will be enough so that ELA is accomplished each day of the school week. Grades are given at the end of the semester and homework is graded by the instructor.

Phone: 209-712-0277

Date of Approval: 1/17/2019

E-mail: hiprettyoflodi@yahoo.com

Approved Services: This 11 week course will discuss makeup and it's effects on self-esteem/confidence, effects of makeup on society and the debate on if makeup can empower us. The importance of self-expression, self-esteem and self-love will be discussed throughout this course while students learn makeup artistry. Week I: Makeup and it's effects on Self-Esteem/Confidence, History of Makeup? Makeup as an artform. During this week's course, students will learn the effects makeup has on self-esteem as well as the importance of confidence. The history of makeup will be discussed and different looks throughout time periods. We will also discuss makeup as an artform and self-expression. Week II: Color Theory The students will learn the color wheel this week, including primary, secondary and tertiary colors. The importance of using the color wheel in the art of makeup. Week III: Brushes This course will focus on all about brushes. We will study how each brush has a different purpose and how to use them. The importance of sanitation and how to properly clean brushes will also be discussed. Week IV: All About Skin Students will learn the different skin types, how to take care of each, what products are needed for all skin types and how to use them. Week V: Foundations of Skin Time to learn about foundations! Students will learn how to find the right shade for different skin tones, what foundation should be used for each skin type and how to apply foundation for each skin tone. Week VI: Face Forward In this course, we will study all the different face shapes, how to do makeup for each shape and how to contour each as well. Week VII: Beauty is in the EYES of the Beholder This course is a big hit! We will discuss different eye shapes, how to apply eyeshadow for each and what color are best for different eye colors. Week VIII: Lips, Liners and Lashes Students will study the different types of both lip and eye liners, as well as the various application techniques. We will discuss false eyelashes-strip lashes and individual lashes. Each student will practice application of all. Week IX: Brows! Brows! Brows! In this course, students will learn the best brow shapes for each face shapes. We will go over how to fill in brows, the importance of grooming brows and choosing what color is best for the brows. Week X: Bronzing, Blushing and Highlighting Where to apply and what colors are best for each skin tone is what this week's course will consist of. Students will learn how to build up color without overapplying. Week XI: Practice makes Perfect Students will practice makeup artistry using all the techniques learned over the weeks.

Approved Services: Current proposal is for "Voyager Quests," a 12 week course on history, science, and cultures following the 1846 voyage of the first shipload of American families to sail from New York around Cape Horn to settle in California. Instruction highlights the scientific principles and cultures encountered throughout that voyage, the migration experience, and competing interests leading up to the California Gold Rush. Dr. Marshall teaches over 50 classes on history and genealogical research, edits history books, speaks at conferences, and is a research consultant for historical re-enactors at state parks and elsewhere. She developed curriculum for Odyssey of the Mind, the California Pioneer Heritage Foundation, and substance abuse prevention programs for Bay Area schools.

Sherry Luiz - Scribe Tutorials

Tracy, California

www.scribetutorials.com

Phone: 209-914-3452

Date of Approval:

9/28/2017

E-mail: tutor@scribetutorials.com

Approved Services: The tutor, Sherry Luiz, is a former high school English teacher who has earned a degree in English, two California teaching credentials, and a Language Development Specialist certificate. Teaching writing classes to homeschoolers for twenty years, and a homeschooling mom herself, Mrs. Luiz is passionate about initiating students into the "mysteries" of good writing, striving to help all her pupils become competent in the craft. The following writing courses are taught live, online: Foundations in Writing Classes Fee: \$650/yr. \$325/semester Four Levels Beginning Foundations: Younger, less experienced students Intermediate Foundations: Students with some writing experience Advanced Foundations I: Older and/or more experienced students Advanced Foundation II: Older and/or more experienced students These writing classes are designed for students grades 6 - 8 and for older students needing basic writing instruction. We will build on the foundational writing skills of note-taking and summarizing. From this starting point, we will be learning and practicing a variety of composition forms: research reports, story critiques, narrative stories, and essays, including writing from prompts. Students will have an opportunity to "play" with language – using strong words, vivid imagery, sophisticated sentence structures and timely transitions. Grammar work and vocabulary will be covered. Students will receive personalized feedback on their writing. There is a literature component for the Intermediate, Advanced Foundations I, and Advanced Foundations II classes. We will be reading and talking about award-winning children's literature. My goal is to engage the students in reading, introducing them to elements of literature without overburdening them with busy work.

Reading lists can be found at my website: <http://www.scribetutorials.com/required-texts/> Introduction to the Essay Fee: \$700/yr. \$350/semester Students in grades 8 – 10 (older students too!) tackle the standard in academic writing: the essay. The instructor will break down the elements of the essay from concise thesis statements and strong supporting paragraphs to engaging introductions and memorable conclusions. Students will practice their new skills with a variety of essay forms: expository, descriptive, persuasive, comparison, response to literature, and research. Class will include a grammar and vocabulary component. Students will receive personalized feedback on their writing. Introduction to Literary Analysis Fee: \$700/yr. \$350/semester This high school level class will introduce students to the art of writing about literature. We will be reading, primarily, a variety of short stories and students will practice recognizing story structure and literary elements and devices. Students will use this knowledge to analyze various stories and develop and defend theses in critical analysis paragraphs and essays. They will learn to quote from a source and cite it.

Approved Services: 1. Music instructions to students of all ages in private lesson setting. The private lessons include instructions of Piano, Guitar, String instrument, voice, and Woodwind instruments. 2. Music instructions to students of all ages in the group setting. We use the Harmony Road Music curriculum. The classes group by student's age. There are Toddler Tune (age 2 to 3.5), Music in Me (age 3 to 5), Harmony Road (age 5 to 6), Young Musician (age 6 to 8), Keyboard Prep (age 8 to 11), and Piano Street (age 11 and up)

E-mail: ostravamusic@gmail.com

Approved Services: I provide comprehensive and enjoyable private music lessons on guitar and/or on piano. Music and mastery of an instrument is a great way to cultivate skills such as coordination, strength, and confidence, not to mention self-expression. This innovative program offers weekly lessons of 45 or 60 minute lessons at my home music studio in East Davis or in the parents' home, if a piano of sufficient keyboard or guitar is available. Cost is competitive, but affordable. Any level is welcome including beginners through advanced.
