2022-2023 School Accountability Report Card
(Published During the 2023-2024 School Year)

Sutter Peak

CHARTER ACADEMY

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Sutter Peak Charter Academy (SPCA) was established in the autumn of 2015 as an independent charter school under the auspices of the Pacific Charter Institute (PCI), a 501(c)(3) tax-exempt non-profit organization. Currently overseeing six public charter schools, the Pacific Charter Institute's Board of Directors collectively serves approximately 3500 students. Dedicated to delivering a personalized learning program for students in grades TK-12, SPCA ensures that each student benefits from one-to-one teaching through a curriculum tailored to individual needs and aligned with established standards. The

2023-24 School Description and Mission Statement

foundational philosophy of Sutter Peak rests on the premise that education is most effective when tailored to the unique strengths and requirements of each student. Our objective is to collaboratively engage with students, parents, and the broader community to unlock each student's fullest potential. Leveraging the flexibility of the independent study model, SPCA empowers students to realize their educational goals.

The SPCA's vision and mission statements are grounded in student needs, contemporary educational research, and the conviction that all students can attain the highest academic standards.

Vision: "SPCA is cultivating self-motivated, educated individuals poised to disseminate knowledge globally in a meaningful manner."

Mission: "SPCA empowers students to assume control of their education by aligning individual needs and interests with a rigorous learning plan, thereby fostering responsible citizens, critical problem-solvers, and lifelong learners."

Central to the Academy's vision and mission is the Academic Triangle, symbolizing the interdependent relationship among the teacher, student, and parent. This dynamic framework ensures a shared understanding of overarching goals, with the teacher developing personalized learning tools to navigate the curriculum successfully. The Academic Triangle embodies the expectation that each participant takes charge of the educational plan, irrespective of the stability of all its components. SPCA maintains a commitment to high academic standards for every student. Regular reviews of student educational data by school administration inform professional development initiatives, ensuring alignment with the institution's goals. The governing board, in turn, approves policies supporting school-wide learner outcomes based on the examination of student educational data.

At the core of school-wide learner outcomes are Academic Standards, implemented through California State Standards-based curriculum and supplemented with appropriate support structures. SPCA utilizes various online programs aligned with Common Core Standards and specific to California, ensuring comprehensive coverage. The Academic Triangle model further reinforces the fidelity of SPCA's mission and vision, accommodating students facing various challenges, including socio-economic disadvantage, English learners, foster/homeless youth, credit deficiency, or academic struggles. Our unwavering commitment is to produce self-motivated students who cultivate an enduring appreciation for lifelong learning.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. 2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All instructional materials for core subjects at Sutter Prep Charter Academy are chosen in accordance with the most recent list of standards-based materials approved by the State Board of Education, often in collaboration with the County Office of Education.

During the school year 2022-2023, Sutter Peak adopted MyAccess for language arts and Reveal Math for mathematics. In the 2020-2021 school year, SP added Impact Social Studies/McGraw Hill 2020 and McGraw Hill Health 2020, complementing our prior adoptions, including but not limited to Inspire Science, (2020) and Cyber High, (2017). These latest adoptions are in addition to Journeys 2016 for English Language Arts, added in spring of 2019, and Go Math Houghton Mifflin added in the fall of 2017. Our commitment to staying current with educational resources is integral to our dedication to delivering a high-quality education to our students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	33	39	31	37	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Sutter Peak Charter Academy employs a diverse array of methodologies to engage in productive consultation and receive valuable input from parents. These mechanisms encompass, but are not confined to, collaborative efforts within the Academic Triangle involving parents, students, and teachers, as well as communication through email, telephone correspondence, TEAMS and/or ZOOM meetings, interactions on social media platforms, comprehensive parent and student surveys, active parental participation in school events, and contributions to the development of school protocols.

The Academic Triangle stands as a distinctive and potent feature at Sutter Peak Charter Academy, fostering collaboration among the three principal stakeholders—the teacher, the student, and the parent. Together, they formulate robust academic plans tailored to individual students, incorporating diverse criteria such as the student's academic history, educational aspirations, home and personal life, affiliations, relationships, and current status.

An annual survey is conducted among parents and students to assess their satisfaction with Sutter Peak Charter Academy. This reflective survey serves as a critical tool for the school to make informed program modifications aimed at enhancing the student experience. The outcomes of these surveys are rigorously reviewed by the faculty, administration, and the board, contributing to continuous improvement initiatives.

Parents play an active role in school activities through various events. Every parent is extended an invitation to attend and actively participate in school events, meetings, and activities. This collaborative group of parents, teachers, and administration provides valuable input on matters such as school spending, activity planning, and academic considerations. Additionally, parents are encouraged to accompany their children on all field trips, including but not limited to local plays, performances, and visits to local museums. Furthermore, parents are invited to participate in co-operatives offering enrichment opportunities for students through specialized classes such as art, math, and language enrichment. This multifaceted approach underscores our commitment to creating a robust and inclusive educational community at Sutter Peak Charter Academy.

Fiscal Year 2022-23 Types of Services Funded

At Sutter Peak Charter Academy students complete local assessments twice annually to gauge their academic progress. In the 2022-2023 academic year, we continued a proactive intervention approach, specifically targeting students who scored at or below 60% on the beginning-of-the-year metrics. Our primary focus was on the lowest-performing students, who received direct instructional support along with access to a range of independent online intervention programs.

Furthermore, we allocate instructional funds to provide students and their teachers with a diverse array of print and online intervention curriculum options. The teacher of record assumes the responsibility of crafting a personalized student success plan, inclusive of academic objectives and tailored support measures, all designed to assist the student in attaining their defined goals. To bolster our students' holistic development, our school also offers access to counselors and a wellness team, catering to their social-emotional well-being. Our comprehensive approach underscores our commitment to nurturing both academic and emotional growth.

Professional Development

Professional Development at Sutter Peak Charter Academy is designed to provide educators with comprehensive and targeted training on current educational topics, ensuring both breadth and depth of knowledge. Our focus remains on refining teaching strategies and prioritizing mental health considerations. These topics are strategically chosen based on student learning plans, derived from the student's master course list, benchmark and cumulative testing, and counselor recommendations aimed at supporting student mental well-being.

We remain steadfast in our commitment to embrace and implement the Common Core State Standards across core subjects, supplemental curriculum, and intervention programs. The Professional Development initiatives are tailored to ensure relevance and timeliness, allowing our students to benefit directly from the latest insights and practices acquired by our teaching staff.

Sutter Peak conducts an extensive five-day in-service training at the commencement of each academic year. Additionally, a robust ongoing professional development plan is in place, structured around a three-tiered model encompassing District-Wide, Site-Wide, and Individual growth trajectories. This model enables our instructional staff to attain competency through diverse pathways. Utilizing LCAP funds, in conjunction with our general fund, the focus areas are determined collaboratively with input from staff members through a comprehensive district-wide survey. The identified focus areas include:

1. Common Core Professional Development, encompassing Beginning Teacher Induction and access to all County Office of Education Professional Development Opportunities.
2. Additional Online Learning Programs and Supports, aligned with the hybrid model of online learning platforms for both students and teachers.
3. Using Data to Support Learning and Instruction.
4. Using Technology to Support Learning.

In the latest year, teachers received specialized training on MyAccess, Reveal Math, and Amplify (mClass) intervention programs and curriculum support. Furthermore, ongoing support for English learners is provided through access to training sessions facilitated by the district's English Language (EL) support provider, emphasizing best practices and tailored support strategies.

Regular staff meetings, conducted weekly either in person or online, serve as platforms for ongoing training in online academic support programs, data-based instruction, and the effective use of technology for instruction and intervention. Training sessions exceeding two hours are conducted in person at conferences, community facilities, district offices, or county offices. Follow-up training is reinforced through mentoring by lead or expert teachers, trainers, or the school director, with continuous review of student data to inform implementation and identify the need for additional support or program adjustments.

In addition to program planning aligned with Local Control Accountability Planning, Sutter Peak Charter Academy provides staff with essential annual mandated training, technology and productivity sessions, conferences supporting the school's mission and vision, and specialized curriculum training. Individual teacher goals are collaboratively discussed and modified three times

Professional Development

annually with the teacher's direct supervisor. Professional Development opportunities, funded by Common Core monies and the general fund, are continually refined based on staff input via district-wide surveys, encompassing new teacher induction, additional online learning programs, instructional practices with an emphasis on EL strategy instruction, data utilization, content specialization aligned with individual career goals, and specific curriculum areas such as MyAccess and Amplify (mClass). These efforts collectively reflect our dedication to advancing student achievement through continuous professional growth and development.
