2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Rio Valley Charter School, an independent charter school established by the Pacific Charter Institute, a 501(c)(3) tax-exempt non-profit organization comprised of charter school leaders in Northern California, operates under the governance of the Pacific Charter Institute's Board of Directors, overseeing seven public charter schools that collectively serve over 4000 students. Dedicated to providing a personalized learning experience for students in grades TK-12, Rio Valley Charter School is guided by the fundamental belief that education is most effective when tailored to individual strengths and needs. Our objective is to collaboratively engage with students, parents, and the broader community to unlock each student's maximum potential. Leveraging the flexibility of the independent study model, Rio Valley Charter School empowers its students to achieve their educational goals.

2025-26 School Description and Mission Statement

Rio Valley Charter School is driven by a clearly defined vision and mission, grounded in the analysis of students' needs, current educational research, and the conviction that every student can attain the highest academic standards.

Vision: "Developing self-motivated, educated individuals who will disseminate knowledge globally in a meaningful way."

Mission: "Rio Valley Charter School empowers students to take charge of their education by aligning their individual needs and interests with a rigorous learning plan, fostering the development of responsible citizens, critical problem-solvers, and lifelong learners."

Central to Rio Valley's vision and mission is the Academic Triangle, symbolizing the interdependent relationship among the teacher, student, and parent. This framework empowers each element of the triangle to assume responsibility for the educational plan. The strength of the Academic Triangle lies in its ability to support students who may initially lack academic stamina or self-motivation. The teacher or parent may play a more significant role until the student progresses to expected levels.

Rio Valley Charter School consistently demonstrates its commitment to each student's educational pursuits through a diverse curriculum that caters to individual abilities and interests. The school administration routinely reviews student educational data to assess needs and ensure alignment with the vision and mission. Professional development initiatives are organized based on a thorough analysis of student educational data. The governing board actively reviews student educational data and approves policies that uphold schoolwide learner outcomes.

Rio Valley Charter School implements California State Standards-based curriculum and supplements it with standards-based supports for all students. Additionally, various online support programs aligned with California's Common Core Standards are utilized. The school is steadfast in its commitment to nurturing self-motivated students who cultivate a lifelong appreciation for learning.

To achieve this goal, Rio Valley Charter School offers four distinct programs across three sites:

1. Independent Study:

- Rio Valley Charter School operates as an independent study charter school, with curriculum delivered by a credentialed teacher. Students are expected to complete assigned work at home and return it for review during predetermined weekly meetings. The Lodi site provides a broad range of on-site courses, including science labs, math support, ELA classes, and more, accessible to both Independent Study and Homeschool students.

2. Home Based Independent Study:

- Rio Valley Charter School offers homeschooling, empowering families to be the primary teachers for their students. Families receive support through curriculum assistance, collaboration with external curriculum and enrichment vendors, on-site core and enrichment classes, and guidance from a credentialed teacher.

3. Hybrid Model:

- Rio Valley Elk Grove presents a hybrid model for K-12 students in the Elk Grove area. Students attend ELA, math, and science classes on-site twice per week and engage in at-home learning with their parents on the remaining three days.

4. Rio Valley Broadway:

- The Broadway site offers instruction for students 6-12, along with traditional college preparatory classes for 7th-12th graders. Students meet with teachers on-site twice weekly for curriculum work or tutoring sessions, and elective workshops are available for additional enrichment courses.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All instructional materials for core subjects at Rio Valley Charter School are chosen in accordance with the most recent list of standards-based materials approved by the State Board of Education, often in collaboration with the County Office of Education. In previous years Rio Valley adopted Wonders 2023 from McGraw Hill for 1-6 ELA, MyAccess for language arts, and Reveal Math for mathematics. In the 2020-2021 school year, RV added Impact Social Studies/McGraw Hill 2020 and McGraw Hill Health 2020, complementing our prior adoptions, including but not limited to Carolina Science. These latest adoptions are in addition to Journeys 2016 for English Language Arts, added in spring of 2019, and Go Math Houghton Mifflin added in the fall of 2017. Our commitment to staying current with educational resources is integral to our dedication to delivering a high-quality education to our students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

Mathematics (grades 3-8 and 11)	25	31	28	30	35	37

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3—Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

2024-25 Career Technical Education Programs

Dan McLaughlin, dan.mclaughlin@pacificcharters.org, (916) 616-3976 is the contact for RVCS CTE programs.

RVCS currently offers courses in the industry recognized pathway of Healthcare Administrative Services. The pathway consists of completing a Medical Terminology course (Concentrator) followed by a year-long course in either Medical Assisting or EKG Technician (Completer). At the conclusion of completing one of the pathways, students have the opportunity to take the NCCT (National Center for Competency Testing) exam.

For online CTE options and to make available more broad content to students, RVCS offers curriculum through iCEV and Edmentum courseware.

iCEV offers state-aligned courses and industry certifications to prepare students for college and career success. The iCEV catalogue allowed students to explore CTE clusters that match their interests. Sample clusters include Family & Consumer Sciences, Law, Public Safety, Corrections & Security, Business, Marketing, Finance & Media.

Edmentum courseware offers online CTE courses in fields like cybersecurity, digital design, culinary arts, and engineering for grades 6-12. These courses integrate core academics with technical skills, focusing on both soft skills and specific job-related competencies.

2024-25 Career Technical Education (CTE) Participation

Measure	CTE Program Participation

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

Rio Valley Charter School employs a comprehensive approach to information dissemination and seeks input from parents, fostering a collaborative environment for the development of our academic programs, Local Control Accountability Plan (LCAP), and initiatives supporting parents in their role as primary educators. We highly value the contributions of our parents and external stakeholders, actively engaging them to play an integral role in the overall success of our educational programs. Our commitment to personalized communication is exemplified by the accessibility of all staff who are equipped with cellular phones and email access. We uphold the expectation that every parent and student call or email receives a response within 24 hours, reinforcing the connections between teachers, students, and parents.

The establishment of a Site Council, convening regularly, enhances collaboration with parents, providing them an active role in decision-making processes related to student learning and associated programs. Rio Valley's ELAC has voted to have the SSC take over their duties, so a separate ELAC is not currently in place. Rio Valley also has an Active Parent Advisory Council which meets four times yearly where the LCAP is reviewed and revised, according to parent feedback.

The Academic Counseling team organizes annual parent academic and financial planning nights, offering comprehensive reviews of college-career planning, scholarship opportunities, and financial assistance options. These sessions cover post-secondary alternatives, scholarship details, and academic progress, providing valuable insights for attending parents.

Twice yearly surveys are conducted among parents and students to gauge satisfaction with Rio Valley Charter. The insights garnered from these reflective surveys guide program modifications, aligning them with the school's objectives. Faculty, administration, and the board review survey results, using this critical information to position Rio Valley Charter within the broader educational landscape. This feedback is integral to the ongoing development and alignment of our LCAP, adhering to the requirements of the Local Control Funding Formula, ensuring that the state's 8 Basic State Priorities are addressed, implemented, and revisited on an annual basis.

Parents actively participate in daily activities alongside their children, engaging in events at the school sites or academic-focused field trips. These activities, often directed by parents in collaboration with instructional faculty at Rio Valley Charter, further strengthen the bond between home and school, fostering a holistic educational experience for each student.

Fiscal Year 2024-25 Types of Services Funded

At Rio Valley Charter School our students complete local assessments twice annually to gauge their academic progress. We have continued a proactive intervention approach, specifically targeting students who scored at or below 75% on the beginning-of-the-year metrics. Our primary focus was on the lowest-performing students, who received direct instructional support along with access to a range of independent online intervention programs.

Furthermore, we allocate instructional funds to provide students and their teachers with a diverse array of print and online intervention curriculum options. The teacher of record assumes the responsibility of crafting a personalized student success plan, inclusive of academic objectives and tailored support measures, all designed to assist the student in attaining their defined goals. To bolster our students' holistic development, our school also offers access to counselors and a wellness team, catering to their social-emotional well-being. Our comprehensive approach underscores our commitment to nurturing both academic and emotional growth.

Professional Development

Professional Development at Rio Valley Charter School is designed to provide our teaching staff with comprehensive knowledge and skills in contemporary educational practices. Throughout the year, our focus centers on teaching strategies, data analysis, and the formulation of student learning plans. We have extended our efforts to deepen these thematic areas, enabling teachers to translate their professional development insights into tangible improvements in student achievement. Our commitment to the Common Core State Standards remains unwavering, and we are dedicated to ensuring that Professional Development remains pertinent and timely, ultimately benefiting our students through the implementation of these standards.

We have established an ongoing Professional Development Plan for our staff based on a three-tiered model encompassing District-Wide, Site-Wide, and Individual growth. This model equips our instructional staff with the versatility to attain competence through various pathways. The following focal points were developed collaboratively with input from all staff members via a district-wide survey:

1. Common Core Professional Development, which includes:

- My Access
- m-Class: Amplify
- Reveal Math
- Professional Learning Communities
- Data-Driven Dialogue

2. Induction Program, along with the opportunity for teachers to access County Office of Education Professional Development Opportunities.

3. Training on the use of Common Core Standards for writing across grade levels.

4. Utilization of additional online learning programs and support systems, in response to the adoption of a hybrid model of online learning platforms for student-teacher use.

5. Emphasis on instructional practices with an early literacy focus.

6. Incorporating data analysis to support learning and instruction.

7. Leveraging technology to enhance the learning process.

8. Engaging in Courageous Conversations with Parents and Students, along with the Productive Feedback Process.

9. Providing Diversity and Cultural Sensitivity training to foster an inclusive and equitable educational environment.

This comprehensive and structured approach to Professional Development at Rio Valley Charter School underscores our

Professional Development

commitment to empowering our teaching staff with the knowledge and tools they need to excel in their roles, ultimately benefiting the educational journey of our students.
